

BUTCHER, BAKER, OR CANDLESTICK-MAKER
Thomas Baker

Change 1

Today is _____ and you receive a telephone call from Alice. Alice tells you that she is so relieved now that her husband is on Medicaid and she feels so good she has decided to go to work part-time as a candle maker for a local art store. She used to make candles as a hobby, but when Thomas became ill there was just no energy for her to continue with it and she is just so grateful that she can return to something she loves doing.

You verify that Alice is expected to work 10 hours a week, she started working_____, she will be paid \$7.00 an hour, and will receive her paychecks weekly on Friday.

Adjust Thomas' case accordingly.
